

## **The prosecution argues that the media is to blame for creating criminals in our society.**

**Prosecution** - Presented evidence of B,R&R powerpoint including video of the procedure  
Included results  
Conclusions  
Links to media  
Used example of James Bond

Reproduction video

Bandura (witness) explained the findings using SLT  
Used an extra link to males and gender differences.

**Defence** - Cross examined Bandura,  
ethical issues  
population validity

**Prosecution** - (bandura) argued that the ethics gave the experiment validity  
America - media levels (linked to population validity)

**Defence** - Ecological validity - poor lab exp.

Raised first argument  
Evidence of SLT - parents are the role models not the media  
Also friends are role models  
More realistic situation than a role model from a film.

Lagerspetz  
Biological explanations

NOS Gene  
Demas et al.  
Nelson et al.

Twin studies  
Lyons et al.

Key witness - Adrian Raine  
Strong controls of reliability

**Prosecution** - Poor generalizability

Defence - Largest sample of PET scans ever

Prosecution - guilty due to insanity, can't be generalised to all murders.

Prosecution - Animal studies

Prosecution - Don't know the underlying reasons for the brain differences

Defence - counter to SLT

Prosecution - Boyatzis Power rangers research  
Williams  
Notel  
TV.

Defence - Charlton et al. Naturalistic, counter evidence

Prosecution - Hanger & Thompson

Defence - Poor population validity  
Small town etc.

Defence - Operant conditioning  
Cross exam of B,R & R - is it media? showing proof of SLT not the media

Prosecution - Banduras variation model dressed as a cat  
potential issues

Attachment theory?  
Self full filling  
prophecy

Prosecution - Virginia Tech

Prosecution - Batman shootings

Defence - not everyone does

Defence - Cho (VTM) severe anxiety disorder - shows bio/other cause

Prosecution - Trigger? media??

Outcome - Defence won :)
